OUR STATIONS

YOUR NEW PARTNER IN MAINTENANCE & ENGINEERING

Athens Aeroservices is an aircraft maintenance engineering and repair provider specialized in aircraft line maintenance in Southeast Europe & Med, with Ref. No: EASA PART 145 EL145.0069.

Our main maintenance hub is located in Athens International Airport and our Regional HQ are based in Athens Greece.

Athens Aeroservices is a company proud for its highly experienced technical staff guided by top industry C-level & management team with an average of 20+ years of management experience at:

- administrative engineering
- maintenance positions at major airlines technical bases
- maintenance positions at maintenance stations around the world

Our company is offering its services to a wide range of aircraft types & engines with a presence in seven countries and a growing network of Line Stations.

Further to our EASA approval we also hold approvals by:

- **HCAA (GREECE)**
- **GCAA (UAE)**
- **TCCA (CANADA)**
- **CAA (EGYPT)**
- **CAA (ALBANIA)**
- **DGCA (KUWAIT)**
- **DGCAR (PACA) (OMAN)**
- **CAACI (CAYMAN ISLANDS)**
- **BCAA (BAHRAIN)**

Currently we offer our service for a wide range of Boeing, Airbus, ATR, Embraer and other types of aircraft.

WHY TO CHOOSE US

Key Benefits

- Presence in 7 countries
- An established network of 15 EASA 145 Approved Stations
- Dedicated AOG response team
- EASA Authorized and ETOPS B1/B2 Certified Engineers
- Tools, Equipment, Borescope and Electronic Test Equipment availability
- Access to a variety of electronic test equipment
- High quality services with cost saving for your budget.

Athens Aeroservices is committed to ensuring that our customers needs for quality aircraft maintenance and engineering, as well as all the range of services offered, are not only understood, but are met with the outmost diligence and professionalism. Coupled with our ever-growing Line Stations Network and range of services;
 ➤ WE DELIVER ON THAT PROMISE.

Our main concern is the safety of your aircraft and our personal reputation is based on working successfully on a broad range of aircrafts with various airlines. We mandate with all corporate European and local standard compliance prompt service with highly experienced engineers & mechanics.

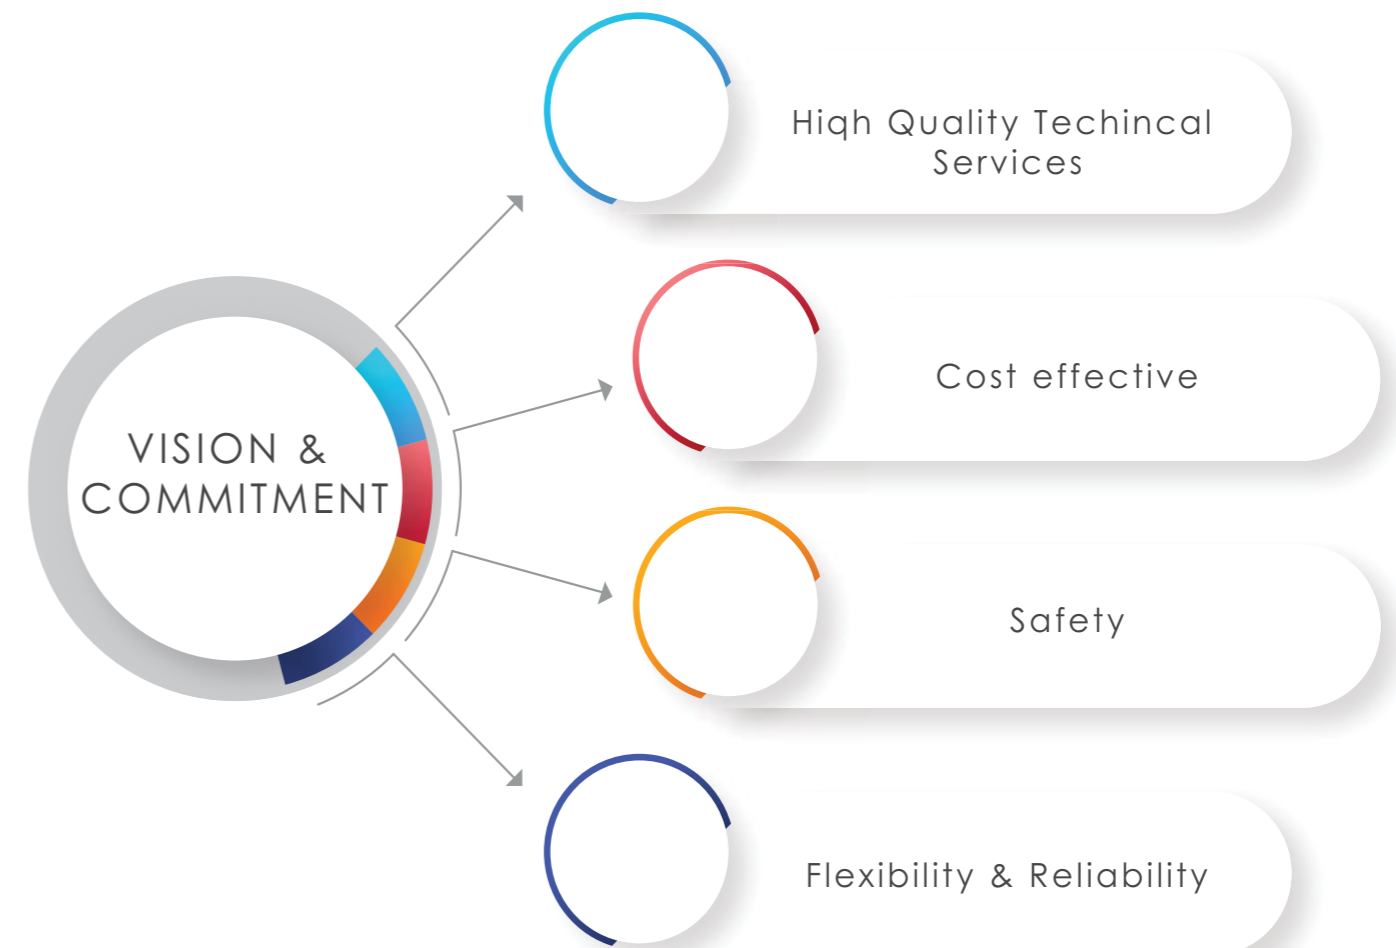

We care about our customers and work towards establishing long term relationships that lead to mutual benefit and success. We strongly believe in the value of teaming with all our stakeholders; customers, suppliers, employees and the community.

Our Vision is to be the Regional Leader in Aircraft Maintenance & Consulting services and the Go-To solution provider for your Line Maintenance needs.

Our Goal is to provide impeccable aircraft maintenance technical services, reliable & cost effective, tailored to customer needs to help you avoid costly down time.

Our Success stems from our highly skilled & experienced engineers and the continuously expanding Line Stations Network; each year adding new Stations and services to satisfy our customers needs.

LINE MAINTENANCE & SUPPORT SERVICES

We provide
the following services:

- Transit Check
- Overnight maintenance
- Daily Check
- Weekly check
- A Check
- ETOPS preflight check
- Work Packages
- Unscheduled maintenance
- In-depth troubleshooting
- Cabin defect rectification
- Aircraft short & long storage
- Aircraft Return To Operation (RTO)
- Engines wash
- Borescope inspections
- Engine change services
- Minor notification
- Parts storage and associated logistics support
- Structural repair support (Sheet metal work)

We also offer documented
Borescope services to a variety of engines

- CF6-50
- CF6-80
- CFM56-3
- CFM56-5
- CFM56-7
- V-2500 series
- PW-4000
- GTCP series
- CFM-LEAP
- PW-1100
- CF34

LINE SERVICES

- Hydraulic Service
- Nitrogen Service
- Engine Oil Service
- Oxygen System check
- Tire Pressure Service
- Fueling, assistance
- DE-ICING / ANTI-ICING

AIRBUS

- Airbus A300-600 (GE CF6 / PW4000)
- Airbus A318/319/320/321 (CFM56)
- Airbus A319/320/321 (V2500)
- Airbus A319/ A320/321 (IAE PW1100)
- Airbus A319/ A320/321 (CFM LEAP-1A)
- Airbus A330 -200/300 (CF6/PW4000/RR Trent700)
- Airbus A330 (RR Trent7000)
- Airbus A340 -200/300 (CFM56)
- Airbus A340-500/600 (RR Trent 500)
- Airbus A380 (EA GP7200)
- Airbus A220 (Bombardier BD-500 Series) (PW PW1500G)

BOEING

- Boeing 737-300/ 400/ 500(CFMS6)
- Boeing 737-600/700/800/900(CFM56)
- Boeing 737-7/8/9 (CFM LEAP-1B) (MAX)
- Boeing 747-200/300(CF6/ PW JT9D)
- Boeing 757-200/300 (RR RB211/PW2000)
- Boeing 767-200/300 (CF6/ PW4000)
- Boeing 777-200/300 (GE90/RR Trent800)
- Boeing 787-8/-9/-10 (RR Trent1000/GENx)

CAPABILITIES

EMBRAER

- Embraer ERJ-170 (GE CF34)
- Embraer ERJ-190 (GE CF34)
- Embraer 135/145 (RR corp AE3007A)

FOKKER

- FOKKER 50/60 (PWC PW 125 /127)

ATR

- ATR 42-200/300 (PWC PW120)
- ATR 72-100/ 200 (PWC PW120)
- ATR 42-400/500/72-212 (PWC PW120)

BOMBARDIER

- Bombardier BD-500 Series (PW PW1500G)
- Bombardier CL-600-2616 (CF34)

CESSNA

- Cessna 560 XL/XLS (PWC PWC545)

FALKON

- Falcon 900 EX EASY (TFE731)
- Falcon 2000 CFE738)
- Falcon 7X (PW307)

PROJECT MANAGEMENT & CONSULTANCY

Athens Aeroservices provides essential service support with highly experienced Aircraft Maintenance engineering representatives and consultancy for aircraft pre acceptance lease or buy.

We cover a wide range of services on Technical Support and our qualified engineers expertise on the subjects are well recognized with years of experience in this field.

In close cooperation with the airline or lessor, Athens Aeroservices can perform a fully documented audit of the aircraft's technical records in order to establish its airworthiness status and commercial value.

Physical inspection is very thorough in order to check the aircraft for hidden damages, previous repairs systems and engines operation etc.

CONSULTANCY SERVICES

On site End of lease/Phase out Checks Acceptance and Re Deliveries

On Site Aircraft Damage Reports/Audits

Technical Evaluation Reports Full Aircraft Records Review/Audits

Registration and de-registration of Aircraft with International Regulatory Authorities

Annual Audits

Representative support during maintenance (I.e Transillon, "C" check, Painting, Livery, Engine Borescope)

Routine surveys physical inspection to verify the A/C technical condition

AOG SUPPORT 24/7

Athens Aeroservices team of highly skilled & experienced engineers is available 24/7 to provide AOG support assistance within a few hours for Europe and up to 24 hours worldwide at any airport.

With our extensive & ever-growing line stations network we are able to dispatch an AOG team from any of the Line stations of our capability.

- » **We offer our services whenever & wherever they are needed, flexibly, quickly and above all reliably.**
- » **Our goal is to consistently and constantly provide the highest level of service options available to our customers.**
- » **Our strategy is to focus on reducing ground time in order to reduce cost and maximize utilization.**

Many of our customers after experiencing our AOG response and performance are now amongst our most loyal.

One call is all it takes,

**no matter which type of aircraft it is,
Athens Aeroservices will respond.**

AIRCRAFT DISMANTLING PARTING OUT

Athens Aeroservices offers full aircraft decommissioning services, including parting out, disassembly & dismantling. Each aircraft we decommission is recycled up to almost 90% of its components and airframe helping in reducing Global CO2 footprint and also sustainably manage waste.

We adhere & promote safe and sustainable practices for Dismantling, Parting out/Decommission, recycling and disposal of aircrafts.

Aircraft decommissioning and recycling is a multi-disciplinary process, with environmental, operational, safety, legal, as well as economic aspects.

Our highly skilled personnel that is involved in the process, is trained to perform all relevant tasks in perfect timing and synchronicity, implementing best practices in this area which results in fast & reliable dismantling helping you take full advantage of the remaining economic value of parts & metals.

Disassembly and preparation for shipping the remaining airframe parts and aircraft components.

Disposal of the remaining fuselage and wing structures.

Packing all material in shipping containers and preparing for export. Owner shall determine the destination of any Aircraft engine, part or component either for export, or, for the items that will not be sold and/or exported out, for sale and/ or recycling domestically.

Removal of Engines components, APU, Landing Gear and OCCM components, avionics, flight control, etc.

GENERAL AVIATION

Athens Aeroservices offers a full range of services to support your aircraft.

We have established a reputation for providing the highest quality of aircraft and customer service.

As an EASA Part 145 EL 0069 Line Maintenance Repair provider, your aircraft will be serviced by the highest standards in the industry.

Our company's services are not limited to routine maintenance and inspections. Our highly experienced engineers perform comprehensive maintenance trouble shooting ,repairs and modifications. Call or email us for all your aircraft maintenance needs from simple repairs to scheduled or unscheduled maintenance.

We are Dedicated to excellence in quality and service delivery.

**See our Scope of work for the aircraft types that we can provide Services and support.*

HEALTH / SAFETY / SECURITY / ENVIROMENT

We are committed to following the best practices of our industry for the wellbeing of all the company's stakeholders - employees, associates, customers, suppliers & society.

- We continuously improve on existing levels of commercial air transport safety amid industry challenges, and the safety management system (SMS) we are implementing is one of the key factors.

- We are an Environmental ISO 14001:2015 approved organization by TUV Austria, since Athens Aeroservices establishment in 2012.

- We follow all CAAs rules & regulations regarding the Security protocols for all the airports we operate in.
